CONTENTS.

FARMERS' BULLETIN No. 1201.—MOTOR TRUCKS ON EASTERN FARMS. Page.

Eastern farmers who own motor trucks 3
Advantages and disadvantages 4
The best size 7
Distance to market 8
Road hauling with trucks 9
Road hauling for which trucks are not used 11
Effect of different kinds of roads on use of trucks 11
Hauling on the farm with trucks 12
Custom work 14
Annual use of trucks 15
Cost of operation 15
Cost of hauling with trucks 18
Kinds of tires recommended by users 19
Reliability 19
Saving of hired help 21
Displacement of horses 21

FARMERS' BULLETIN No. 1202.—AN AGRICULTURAL ALMANAC FOR 1921.

Calendar by months, with form notes 3
Farm helps 50
Former Secretaries of Agriculture 63
At your service 64

FARMERS' BULLETIN No. 1203.—THE ANGORA GOAT.

The Angora in America 3
Importance of proper conditions for raising Angoras 4
Distribution in the United States 4
Origin of range and registered stock 6
Present type of the Angora goat 7
Goats for clearing land 9
The Angora breeder 10
The beginner's foundation flock 11
Management of goats on the range 11
Mohair production and consumption 21
Grading mohair 21
Goat meat 22
Health in goats 24
Organizations 26

FARMERS' BULLETIN No. 1204.—NORTHWESTERN APPLE PACKING HOUSES.

Community packing houses 3
Separate packing and storage rooms 5
Location 6
Some points in construction 7
Lighting 8
Hauling 12
Organization and personnel 13
Care in handling fruit 15
Grading belts 16
Hand tables 18
Sizing machines 20
Gravity conveyors 25

FARMERS' BULLETIN No. 1204—Continued. Page.
Elevators and chutes 28
Miscellaneous equipment 30
Handling the loose fruit 32
Disposition of culls 34
Orchard boxes 34
Dumping 36
Stamping 36
Lidding 37
Box presses 37
Labeling 37
Local considerations 39

FARMERS' BULLETIN No. 1205.—POTATO PRODUCTION IN THE SOUTH.
Comparative cultural practices 3
Extent and importance of the potato crop 3
Potato production in the Southern States 4
Seasonal crop divisions 5
The early or truck crop 5
The late or main crop 26
The fall crops 29
Marketing the fall crops 37
Storage 37
Summary 38

FARMERS' BULLETIN No. 1206.—THE CORN EARWORM AS AN ENEMY OF VETCH.
What the corn earworm eats 4
When a serious infestation may be expected 4
Moth and caterpillar 5
Closely related species 5
Seasonal history 5
Life cycle 9
Insect enemies 13
Control measures 14
Publications relating to insects injurious to cereal and forage crops 19

FARMERS' BULLETIN No. 1207.—MILK AND ITS USES IN THE HOME.
Composition of milk 3
Food value of milk and some other foods 8
Digestibility 9
Milk for infants 13
Bacteria in milk 14
Pasteurization and sterilization 16
Care of milk in the home 19
Milk products 22
Use of milk in cooking 29
Summary 31

FARMERS' BULLETIN No. 1208.—TREES FOR TOWN AND CITY STREETS.
Kinds of trees suitable for streets 3
Qualities necessary 3
Trees for different regions 6
Trees for special purposes 11
Descriptions of street trees 11
Acacia 11
Ailanthus 13
Ash 13
Camphor 14
Chinaberry 15
Elm 15
Eucalyptus 17
Ginkgo 18
Hackberry 19
Honey locust 20
Horse-chestnut 21
Linden 21
Locust 22

FARMERS' BULLETIN No. 1208—Continued.
Descriptions of street trees—Continued. Page.
Magnolia 22
Maple 22
Oak 26
Palm 31
Pepper tree 35
Poplar 35
Rubber tree 37
Silk oak 37
Sweet gum 37
Sycamore 37
Tulip tree 40

FARMERS' BULLETIN No. 1209.—PLANTING AND CARE OF STREET TREES.

Importance of shade trees 3
Public control of shade trees 7
Planning for trees on city streets 10
Spacing trees 11
Conditions for tree growth 12
Trees suitable for city streets 16
Culture of street trees 16
Selection of individual trees 16
Preparation of holes 17
Planting 18
Pruning 25
Stakes and guards 26
Later care 27
Care of mature trees 28
Pruning 28
Feeding 30
Spraying 32
Publications relating to diseases and insects affecting shade and ornamental trees 34

FARMERS' BULLETIN No. 1210.—MEASURING AND MARKETING FARM TIMBER.

Aim 3
Principal wood products 3
Units used in the measurement of timber 18
Scaling timber 21
Estimating standing timber 23
Finding the sale value of standing timber 37
Markets and prices 41
Shipping by rail 43
When to sell 47
How to sell 48
The small sawmill 56
Cooperation in marketing 57
How to prevent the deterioration of cut-wood products 59
Practical helps in marketing 60

FARMERS' BULLETIN No. 1211.—HOME CANNING OF FRUITS AND VEGETABLES.

Why can? 3
Causes of spoilage 4
What is sterilization? 5
Processing versus sterilization 5
Why it is better to process after packing in the container 7
Why fruits and vegetables should be canned only when absolutely fresh and sound 7
Fermentation and "flat sour" 8
How to tell when canned food is safe to eat 9
Different ways of processing 10
Equipment for canning 14
Types of canners 15
Arrangement of equipment for outdoor canning 18
Operation of canning outfits 19
Containers 21
Preparation for canning 24

FARMERS' BULLETIN No. 1211—Continued. Page.
Canning in glass 29
Canning in tin 31
Directions for canning different kinds of fruit 36
Directions for canning different kinds of vegetables 43
Directions for processing asparagus, corn, greens, okra, string beans, lima beans, peas, and spinach in hot-water bath or water-seal canner 48

FARMERS' BULLETIN No. 1212.—STRAIGHTHEAD OF RICE AND ITS CONTROL.
Occurrence and damage 3
Description of straighthead 4
Other forms of sterility in rice 8
Cause of straighthead 10
Control measures 11

FARMERS' BULLETIN No. 1213.—FLAG SMUT OF WHEAT AND ITS CONTROL.
Distribution of flag smut 3
Symptoms 3
Dissemination 4
Control 4
Varieties of wheat resistant to flag smut 5

FARMERS' BULLETIN No. 1214.—FARM DAIRY HOUSES.
Necessity for a dairy house 3
Importance of well chosen location 3
Construction of dairy houses 3
Plans for milk houses 5

FARMERS' BULLETIN No. 1215.—BEEKEEPING IN THE CLOVER REGION.
Geographical boundaries of the clover region 4
Variations within the region 5
Relation to other beekeeping regions 5
Characteristics of the clovers 6
Present development of beekeeping in the region 10
Peculiarities of the region 11
Type of honey to be produced 11
Other plants in the region which furnish nectar 12
Equipment recommended 14
Adaptations of beekeeping practice for this region 15
Market facilities and methods of marketing 26
Opportunities for development of this region 27

FARMERS' BULLETIN No. 1216.—BEEKEEPING IN THE BUCKWHEAT REGION.
Geographical boundaries of the buckwheat region 4
Variations within the region 5
Relation to other beekeeping regions 6
Characteristics of buckwheat 6
Present development of beekeeping in the region 8
Peculiarities of the region 8
Type of honey to be produced 9
Other plants in the region which furnish nectar 10
Equipment recommended 11
Adaptations of beekeeping practice for this region 12
Market facilities and methods of marketing 25
Opportunities for development of this region 26

FARMERS' BULLETIN No. 1217.—THE GREEN-BUG OR SPRING GRAIN-APHIS.
Distribution 3
Life history 4
Natural enemies 7
Control methods 8
Publications relating to insects injurious to cereal and forage crops 11

FARMERS' BULLETIN No. 1218.—BEEF PRODUCTION IN THE CORN BELT.
I. Producing feeders in the Corn Belt 3
Feed required to winter a cow 4
Factors influencing cost of production 5
Winter rations for the breeding herd 8
Winter rations for stockers 8

FARMERS' BULLETIN No. 1218—Continued. Page.
II. Buying feeders for the Corn Belt 8
Markets supplying feeders 9
The quality of feeders 9
Age of feeders 9
III. Fattening steers in the Corn Belt 11
Getting steers on full feed 12
Methods of dry-lot feeding 13
Roughages used in dry-lot feeding 13
Concentrates used in dry-lot feeding 20
Feed required for 100 pounds of gain 23
Fattening rations for 2-year-old steers 25
Operating expenses in fattening cattle 27
Fattening of steers usually profitable 30
Summer fattening on grass 31
Fattening yearlings on blue-grass pasture and supplemental feeds 32

FARMERS' BULLETIN 1219.—FLOORS AND FLOOR COVERINGS.
Floors 4
Woods suitable for flooring 5
Finishing new wood floors 6
Stone, concrete, composition, and tile floors 14
Treating old wood floors 14
Care of floors 16
Floor coverings 18
Common types of rugs and carpets 19
Utilizing old carpets and rugs 26
Care of rugs, carpets, and mattings 26
Linoleum 32
Floor oilcloth 35
Summary 35

FARMERS' BULLETIN No. 1220.—INSECT AND FUNGOUS ENEMIES OF THE GRAPE.
Insect enemies 3
Insects attacking the fruit and blossoms 4
Insects injuring the foliage and buds 13
Insects affecting the canes 35
Insects affecting the roots 40
Fungous diseases 47
Insecticides 65
Fungicides 68
Sprayers 70
Dusting apparatus 73
Spraying accessories 74
Grape-spraying schedule 74

FARMERS' BULLETIN No. 1221.—STANDARD VARIETIES OF CHICKENS. IV. THE ORNAMENTAL BREEDS AND VARIETIES.
Reasons for keeping chickens 3
Breeds and varieties 4
Polish class: Polish 5
Hamburg class: Hamburg 9
Game class: Game 16
Oriental class:
Sumatra 22
Malay 22
Miscellaneous class:
Sultans 24
Frizzles 26
Publications relating to poultry raising and egg production 28

FARMERS' BULLETIN No. 1222.—BEEKEEPING IN THE TULIP-TREE REGION.
Geographical boundaries of the tulip-tree region 3
Variations within the region 5
Relation to other beekeeping regions 5
Characteristics of the tulip tree 5

FARMERS' BULLETIN No. 1222—Continued. Page.
Present development of beekeeping in the region 7
Peculiarities of the region 7
Type of honey to be produced 10
Other plants in the region which furnish nectar 10
Equipment recommended 11
Adaptations of beekeeping practice for this region 13
Market facilities and methods of marketing 23
Opportunities for the development of the region 24

FARMERS' BULLETIN No. 1223.—THE CHINCH BUG AND ITS CONTROL.
Amount of damage 3
How the chinch bug injures crops 4
Where the chinch bug occurs 4
How to know the chinch bug 5
Food plants 8
Life history 9
Conditions favoring outbreaks 12
Natural control 12
Control measures 15
Cooperation 33

FARMERS' BULLETIN No. 1224.—WHEAT SCAB AND ITS CONTROL.
Losses caused by wheat scab 3
Geographic distribution 5
Grains and grasses attacked 5
Description of the disease 5
Cause of wheat scab 8
Life story of the parasite 12
Weather conditions favoring the disease 13
Control measures 14

FARMERS' BULLETIN No. 1225.—THE POTATO LEAFHOPPER AND ITS CONTROL.
Description 3
Distribution 4
Economic importance 4
Seasonal history 4
Injury caused by the potato leafhopper 6
Food plants 10
Natural enemies 11
Selections from resistant vines 12
Control of the leafhopper and prevention of "Hopperburn" 13
Summary of control measures 16
